AN OLD SCHOOL

Successful Closing Exercises at Lahainaluna.

Excellent Work of Classes in English—Advanced Studies—Addresses by Judge and Others.

(Contributed.)

The program for the closing exercises of Lahainaluna school June 24, was carried out extremely well with the exception of the toasts by D. Kapohakimohema and George Hayselden, both of whom were unfortunately compelled to be absent.

Of the class exercises that in E. English by Principal Abbott was perhaps the most interesting to the audience. It was the development of a story in the German method, and the class aroused much interest by their keen and thoughtful statements of the possibilities. The B Algebra under Mr. Tople, lately from California, and the C Geometry under Miss F. P. Rosecrans, the vice principal, each elicited much praise for promptness and correctness of work.

Of the toasts the best were "Our Aims," by Mr. C. E. Rosecrans, who is just back from the coast, and "What Lahainaluna Will Do," by Judge Kalua, who came over from Wailuku to attend the examinations.

Mr. Rosecrans laid great stress upon the spirit of the school, pointing out that the first purpose of a school must be to develop character. Next, that what is wanted in the education of Hawaiians is what is best expressed by the homely word "gumption," which includes enterprise, determination and ability to adapt means to the end in hand. He claimed that Lahainaluna has been preeminently successful in cultivating both of these, giving instances of the latter in the repair of machinery in the ice factory and the printing office.

Judge Kalua's speech was at the same time inspiring and amusing. He recalled the time when he sat in a corner of the old dining room which he pointed out, the poorest of poor boys, dressed in a white cotton shirt and a pair of pants made of ticking, fastened at the top by a string, like a tobacco pouch. He attributed much of his success in life in to the training he had received from Lahainaluna, his Alma Mater, and that in spite of the fact that he learned no English there. If he had had such a training in English as the boys who had spoken that morning he would have been able to speak English as well as his principal himself.

Taking up the aims of the institution Judge Kalua said that what we need is men who can think for themselves, not men who will say "yes" when told to say "yes," or "no" when told to say "no." He thought the training the Lahainaluna boys were receiving was making such men of them.

Judging from the past, more especially the past few years, in which printing press, ice machine, electric lights, a renewed dining hall, and a new shop had been added, he thought Lahainaluna was destined to do even more in the future than she had done in the past.

The exercises took up the entire day from 9 in the morning. A large number of people were present.

THIS IS CALLED

WORK OF WITS.

Saved the Trouble.—"Where do you find the most miserable man?" cried the temperance orator. "You don't have to find him," said a voice in the audience; "he hunts you up and tells you about it."

Mrs. Chugwater—"Josiah, I see a good deal in the papers about infernal machines. What is an infernal machine?" Mr. Chugwater—"Well, sometimes I think it's a lawn mower, and sometimes I think it's a piano."

Realized It.—In his "Life of Bismarck" Dr. Moritz Busch declares that the "man of blood and iron" on more than one occasion called him a fool. The doctor recorded the affront in his diary, and gravely added that Bismarck was a keen judge of character.

"Were you out in all that rain?" asked Mary. "No," said the young woman from Girtan, "I was merely in the portion of the rain that descended in my immediate vicinity."

Father—"Why, when I was your age I didn't have as much money in a month as you spend in a day!" Son—"Well, pa, don't scold me about it. Why don't you go for grandfather?"

Miss Howler (who sings)—"That gentleman you just introduced me to said he would give anything if he had my voice. By the way, what business does he follow?" Friend—"He's an auctioneer."

Wife (at 4 a. m.)—"I can't get the baby to take this medicine at all." Weary Father—"I suppose he's afraid it's something to make him sleep."

Ever With Them.—"I can't understand how some people always have a good time wherever they go." "That's easy enough—they take it along with them."

"The dear, dear girls!" exclaimed Mrs. Pawkins, looking at her fashionable daughters enthusiastically. "Yes,

the dear, dear girls," muttered Mr. Pawkins, despondently.

Frank—"Some genius in Manchester has invented a buttonless shirt." Billy—"Why, that is nothing new. I've worn them ever since my wife learned to ride a bike."

Featherstone (at the station)—"Did you get return tickets?" Ringaway—"No. What for?" Featherstone—"You seem to forget, old man, that we are going to the races."

Monsieur de France—"You wind up ze clock to make him go?" English Tutor—"Exactly." Monsieur de France—"Zen what for you wind up ze business—to make him stop?"

WOULD NOT SUFFER SO AGAIN FOR FIFTY TIMES ITS PRICE.

I awoke last night with severe pains in my stomach. I never felt so badly in all my life. When I came down to work this morning I felt so weak I could hardly work. I went to Miller & McCurdy's drug store and they recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. It worked like magic and one dose fixed me all right. It certainly is the finest thing I ever used for stomach trouble. I shall not be without it in my home hereafter, for I should not care to endure the sufferings of last night again for fifty times its price.—G. H. Wilson, Liverman, Burgettstown, Washington Co., Pa.

NOTICE
 TO EWA PLANTATION
 STOCKHOLDERS.

It having been voted to increase the capital stock of the Ewa Plantation Company to \$5,000,000 and to issue certificates of stock of the par value of twenty dollars (\$20.00) each, for the full amount thereof to the present holders of the stock, now THEREFORE the stockholders are hereby notified to at once produce and surrender their present certificates of stock to the Treasurer of said Ewa Plantation Company in order that such exchange into \$20.00 shares may be made. It is requested that the Stockholders make CLEAR INSTRUCTIONS IN WRITING to the Treasurer as to the number of certificates, and number of shares each, in which he may wish his certificates issued. It must be borne in mind that there will be due on each new share issued (covering the increase of stock voted) a charge for revenue stamps as required by law.

Notice is further given, that in all cases where such new issue and allotment will involve fractions of shares, the persons who may become entitled to such fractions must within thirty days make such arrangement either by sale, or purchase of other fractions, as will obviate the issue of fractional shares, whereof notice must be given the Treasurer, or such fraction of shares will be sold at public auction and the proceeds divided among those entitled thereto.

Dated Honolulu, H. I., June 15, 1899.

There Are Plumbers and Plumbers.

OUR SPECIALTY IS

Sanitary Plumbing.

There's as much difference between plumbing and SANITARY PLUMBING as there is between daylight and darkness. Anyone can put a lot of pipes together and run them off anywhere, but with Honolulu's surface sewerage the essential point is to have the plumbing done in a way that makes the Sanitary conditions perfect.

A Model Plant is not complete without Electric Power, thus dispensing with small engines.

Why not generate your power from one CENTRAL Station? One generator can furnish power to your Pump, Centrifugals, Elevators, Pumps, Railways and Hoists; also, furnish light and power for a radius of from 15 to 30 miles.

Electric Power being used, saves the labor of hauling coal in your field, also water, and does away with high-priced engineers, and only have one engine to look after in your mill.

Where water power is available it costs nothing to generate Electric Power.

THE HAWAIIAN ELECTRIC COMPANY is now ready to furnish Electric Plants and Generators of all descriptions at short notice, and also has on hand a large stock of Wire, Cables and Electrical Goods.

All orders will be given prompt attention, and estimates furnished for Lighting and Power Plants; also, attention is given to House and Marine Wiring.
